Australia's Skill Shortage shows no signs of improving

The New Daily, March 2023

Financial Impact of Skills Shortage is set to increase

Australian IT Brief, February 2023

SILCA UNOCODE F-SERIES

With headlines like these still in the news, it's no wonder smart businesses are turning to automation and technology to keep moving.

Silca's Unocode F-Series can help. With a magazine loader, and automatic unloading, you can cut and engrave regular inline and restricted keys fully automatically – without an operator.

It takes just a few minutes to set up a job, then the machine will do the work – freeing up your labour for hours – So you can concentrate on other more productive and profitable tasks.

Nearly 50 customers, in every state and territory – from city to regional areas, have automated their key cutting process and are enjoying the benefit of time and labour saving.

"We are very happy with the performance of our F900. It has streamlined our cutting of restricted keys which in turn gives us more time to get on with other things. The F900 certainly helps as our shop can be extremely busy at times!"

Col, Echuca Locksmiths (VIC)

Locksmiths around Australia are choosing the F-Series to automate their key cutting process

Talk to your account manager today. Let us show you how to "create time".

With the EOFY approaching, now is the time to talk to your financial advisor about making smart, tax effective investments in your business.

Australia suffering dire skills deficit

PRODUCT SPOTLIGHT

visit lsc.com.au to see Lockwood Electric Strikes full range!

LOCKWOOD ELECTRIC STRIKE

The ES9000 overcomes the real life issue of side pressure, commonly known as pre-load, easily opening with up to 25kg of pre-load applied to the strike. Pre-load is commonly caused by pulling on a door before it unlocks, by the weight of warped or drooping doors or by differential air pressure created by heating and cooling systems.

- Multi voltage 10 volts - 30 volts
- Weather resistant to IP54
- SCEC approved
- 4 hour fire rating

BDS MAGNETIC GATE LATCH

From the makers of the BDS key switch, the BDS mortice magnetic gate latch is a versatile latching solution for most entry gates.

Designed to be morticed into the gate post, it will work with a standard euro cylinder or a Borg 2000 series sized keypads. It suits 40mm & 50mm posts. When fitted with a BRAVA euro cylinder it is neat and less obtrusive than other gate locks, making it the smallest gate latch solution on the market.

SMART PRO CABLE

**ADVANCED
DIAGNOSTICS**

Do you have the correct SMART Pro cable for the job?

On select vehicle models when all keys are lost the method of programming keys requires connection to various componentry in the vehicle other than or in addition to the OBD port. Advanced Diagnostic have developed a number of manufacturer specific cables for this purpose.

SALTO

inspired access

SALTO Systems revolutionised access control with the introduction of the SALTO Virtual Network SVN data-on-card technology and the advanced battery-operated wireless electronic smart door lock range in 2001.

For nearly 20 years SALTO has been synonymous with innovative solutions, including stand-alone, cloud-based and mobile applications, that set new standards in security, manageability, flexibility and design that bring real-world benefits to virtually any door and building type.

RISCO

Over the past four decades, RISCO has become a technological leader in the global security solutions market, with millions of satisfied customers worldwide and regional offices around the globe.

Developing cloud-based security, video monitoring and verification, and connected home solutions, RISCO delivers innovative, top quality and reliable security products for every type of security and safety installation for the residential and commercial markets.

Milesight

Milesight specialise in the design, development and manufacturing of best-in-class AIoT video surveillance solutions including Network Cameras, NVRs, Software and App with superior image quality, exceptional flexibility and reliability.

Committed to “Better Inside, More in Sight”, Milesight has been providing products to meet the increasingly demanding security landscape and will always provide highest- quality surveillance solutions, deliver the most advanced innovation and produce user-friendly products.

HID

HID powers the trusted identities of the world’s people, places and things. HID make it possible for people to transact safely, work productively, and travel freely.

People use HID products to open doors, access digital networks, personalize badges, verify transactions, find information, track assets and connect with others—ensuring their identities are seamlessly accepted, anywhere, anytime.

SMART UNLOCKED ANY TIME, ANYWHERE.

The Unity Entrance Series is the answer to seamless entry with the Yale Unity Entrance Lock and the NEW Yale Unity Security Screen Door Lock.

Together when installed with a Yale Connect Plus Wi-Fi Bridge, the Unity Entrance Series features DualDoor™ Technology*. With a single command the user can operate both the security screen door and the main entrance door together. Door lock or unlock command operates both locks (Unity Security Screen Door Lock and Unity Entrance Lock) in a sequence.

The Yale Access ecosystem can integrate with the Unity Security Screen Door Lock and Unity Entrance Lock together to operate both locks with a single command. The technology works seamlessly, to provide ultimate user convenience. Users can enter the home without keys and save the effort of operating the screen door and main entrance door locks together.

HOW MUCH CONTROL DO YOU NEED?

View the range in SecTech!

CREONE

CONTROL

The KeyRack and KeyBox KeyControl series identify and keep a check on all of the keys. On each key ring, there is an IntelliPin key peg that is placed in key strips on the wall or in cabinets. The keys are then managed digitally and you know exactly who has which key at all times. The KeyWin6 software manages the key cabinets, and registers and saves all events.

ACCESS

The Basic and System series are two simpler series with a robust design that provides secure storage. The storage systems do not have any identification; instead, they are administered locally by entering compartment acknowledgments via the keyboard. All storage systems are expandable by up to 15 Expansion cabinets in any combination. In other words, you can control 96 compartments with the same system, via the very same keypad. The System series can also be administered via KeyWin Light.

EVENT WRAP UP

ISC WEST EVENT

ISC West is the largest security industry trade show in the US. It is held annually in Las Vegas and showcases new products and technologies. This year Rhys Saxon and David Cooper from LSC attended, looking for new market trends in Electronic Security and meeting with our valued supply partners from around the world.

LOCK FOCUS TOUR

Martin McGovern together with Skye Parker and Simon Churcher from the purchasing department recently visited the Lock Focus factory located in Keysborough on the outskirts of Melbourne. The team were suitably impressed to witness firsthand the manufacturing processes behind this proudly Australian made product range.

HAPPY CUSTOMERS

Customer Testimonial

THE LOCKSMITH MAN (QLD)

Shaun Moon from The Locksmith Man in Townsville was happy to have his photo taken next to his new addition in his work van – a Silca Futura Pro.

ECHUCA LOCKSMITHS (VIC)

"We are very happy with the performance of our F900. It has streamlined our cutting of restricted keys which in turn gives us more time to get on with other things. The F900 certainly helps as our shop can be extremely busy at times!"

AUTO TECH LOCKSMITHS (QLD)

Ben was all smiles when he collected his new Advanced Diagnostics SMART Pro and SMART Arial.

ALEX FOX MAINTENANCE (QLD)

Alex had given us a big thumbs-up in this photo as he has just purchased a new Silca Futura Edge.

FLY MORE WITH Milesight

Michael Pelling of MSE Alarms in SA is the lucky winner of the JDI Mini Drone prize draw from the Fly more with Milesight promotion.

Congratulations!
