

Marketing Release Note

RWX780433M3A 2-way Slim Contact X73 433MHz for A/NZ

April 2024

RISCO is happy to announce the release of the 433 MHz version of the 2-Way Slim Contact.

The 2-way Wireless Slim Door/Window Contact is a small footprint device ideal for wireless perimeter door/window protection in residential and commercial applications.

With its improved sensitivity, the Slim Magnetic Contact ensures enhanced performance. Designed for effortless installation and convenient battery replacement, the Wireless Slim Door/Window Contact is both user-friendly and efficient.

1. Ultra-thin contemporary design
2. Improved performance
3. Easy installation and battery replacement

An optional adapter provides universal transmitter capability in a single casing, recognized as a separate zone in the system.
